

## Promote, anywhere ...at your fingertips

Promote, inspire and inform.

Capture your guests' attention, in the right place at the right time.

Digital Signage gives you the opportunity to display your scheduled promotions and information in the most visible areas of the hotel.

- ▶ Professional solution, works with any screen
- ▶ Versatile, unlimited content editing and scheduling
- ▶ Simple, remote administration from any device

# DIGITAL SIGN

signage solutions for any screen

## The right place

Schedule your images and videos in playlists, reaching guests on their way in or out of the hotel, by the elevator, or in the corridor.

Anywhere, in fact, that can put your messaging at the forefront of the guest experience.

Manage displays yourself or use our team to manage for you, expandable and modular  
Your choice, Your way, Your display

From 1 to 100s of Signs over all your locations anywhere data exists, Wired, Wifi or 4G

## The right time

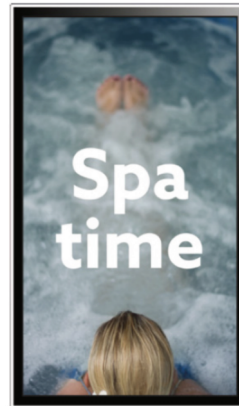

Automatically schedule your promotional messaging to suit the time of day, for maximum response and reaction.

Just set up once and let Digital Sign do the rest – playlists can be set to recur as and when you please.

## Sign of the times

Not everyone needs to invest in high-end, SoC digital signage displays. Naturally, our system works with these too, but we're here to help you keep your outlay to a minimum.

Our simple, compact and robust DS-Player tucks discreetly behind any standard TV or monitor to turn it into a fully functioning, remotely managed and monitored digital sign.

Each display works individually or as part of a group, so you have complete control over your content, wherever you are.

Our portal access is cloud based so you can manage your signage from anywhere.
